

Important Information-

6th Grade Science Camp

We are happy to announce some exciting news for our sixth-graders! This coming spring we will be attending our annual 6th Grade Science Camp at a new location, Point Bonita YMCA. Point Bonita is located on the cliff side of the Pacific Bay overlooking the Golden Gate Bridge. It is important for us to know who is planning on joining us for this once in a lifetime opportunity. We are asking each family to fill out the "REQUEST TO GO" section at the bottom of this page along with a \$50 deposit and return it by Friday, November 17, so we can begin to plan accordingly. Also, look out for a science camp packet that students will be bringing home soon. Those packets will have several important pages to fill out and return completed.

6th Grade Science Camp 2018
